

The Confetti Farm

A one-page reference for venue coordinators & event managers

> What is it?

Our confetti is made of 100% rice paper. No plastic, mylar, glitter or harmful dyes. It dissolves completely when in contact with water.

We've been trusted by over 6,000 event spaces with over 1,700 5-star reviews.

No staining
Safe around wildlife
No microplastics

> Clean-up

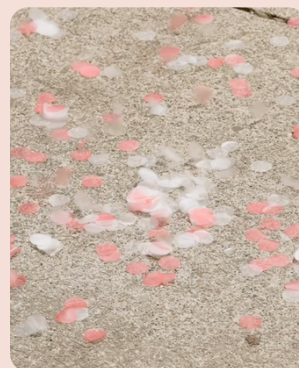

For quickest results, a quick pass with a pressurized hose works best. Standard garden hose or sprinkler may take a few minutes or leave it to the elements and the rain will take care of it in 2-3 days.

Scan QR code to watch a video of the confetti melting in action!
